VACANCY: Regulatory Engineer – Water and Sewerage

The Public Utilities Regulatory Commission (PURC) was established by the PURC Act No. 20 of 2016. The Act speaks generally to public utilities, to date the Commission regulates the Electricity, Water and Sewerage sectors in the state of Grenada.

The Commission is seeking a highly skilled individual to join our multidisciplinary team of technical and professional staff, involved in undertaking complex and demanding activities required to satisfy its role as regulator of the water and sewerage sector, and in fulfilment of its mandate.

Functional Relationships: The Regulatory Engineer – Water & Sewerage plays a vital role in fulfilling the Public Utilities Regulatory Commission's mandate to regulate the water and sewerage sectors in Grenada. The selected candidate will be responsible for monitoring, evaluating, and guiding the performance of water and wastewater service providers. This officer will also contribute to the development of the sector's regulatory framework to ensure compliance with national standards, promote sustainable infrastructure development, and safeguard consumer interests.

Experience: Minimum 5 years of experience in water/wastewater infrastructure, regulation, or public utility management:

1. Knowledge of Caribbean water standards, environmental laws, and public health codes
2. Strong analytical, communication, and stakeholder engagement skills
3. Professional Engineering registration or eligibility is an asset

Qualifications: Applicants must possess a Bachelor's degree (or higher) in Environmental Engineering, Civil Engineering, Water Resources Engineering, or a related field.

Responsibilities

1. Develop and enforce technical standards for water supply and sewerage systems
2. Review and assess utility providers' infrastructure plans, tariffs, and service quality
3. Conduct inspections and audits of water and wastewater facilities
4. Advice on environmental and public health compliance
5. Analyse data and prepare regulatory reports and recommendations

6. Collaborate with stakeholders, including government agencies, utility providers, and the public

7. Support policy development and strategic planning for sector improvement

All applications should include a cover letter, updated CV, the names of 2 references and should be addressed to

The Chief Executive Officer,
Public Utilities Regulatory Commission,
Queens Park,
St George.
